DETAILED ACTION

1. This communication is in response to amendment filed 4/24/08.

Drawings

2. This application contains informal drawings submitted on 6/12/2000. The applicant is required to file formal drawings in response to this Notice of Allowance. Please follow applicable rules for filing the formal drawings under 37 CFR 1.84 Standard for Drawings.

The new drawings MUST be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

Response to Amendment

3. Claim 5 has been amended. Claims 5-7 are currently pending (after the Examiner's Amendment that follows) and are allowed.

EXAMINER'S AMENDMENT

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Attorney Audrey A. Millemann (Reg. No. 44,942) on 5/16/08.

Art Unit: 3693

The application has been amended as follows:

In the Claims

Cancel claims 8-11 and 20-36

Allowable Subject Matter

5. Claims 5-7 are allowed.
6. The following is an examiner's statement of reasons for allowance:

The closest prior art of record Wares (US 2001/0044768) teaches an automated process of conventional project management (see abstract and Figs. 2 and 3) in which issues requests for bids by owners or architects to general contractors, who in turn request bids from sub-contractors, who in turn request bids from suppliers and manufacturers.

In contrast, Applicant's invention as claimed is a method of automated competitive bidding. This method automates competitive bidding by extracting the best value for the acquisition without paying for non-value adds items. (See Khalidi Declaration, ¶ 3.) This is not true of Wares' system which uses a general contractor, subcontractor, supplier, etc. in a sequence. Applicant's method is for competitive bidding, as described in the abstract ("...packages, processes, connects, procures, bids and reports the competitive bidding cycle..."), Figs. 1B, 1C, and 2, and on pages 33-36. Applicant's method requires sequestering of the original acquisition into competitive and non-competitive packages.

Therefore, it is stated that the closet prior art of record fails to teach, suggest or render obvious to one of ordinary skill in the art at the time of the invention an automated process for competitive bidding which comprises at least the following:

Automatically sequestering a bid package into a plurality of modules and automatically further sequestering the plurality of modules into an in-house and at least one outsourced module, whereby the in-house module receives an in-house bid and further automatically selects a set of prequalified potential suppliers based on a statistical weight generated for each supplier.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
